Granite HP
 Seal/Finish

DESCRIPTION

Granite HP is an highly durable, long lasting sealer & finish designed especially for terrazzo, quarry tile, brick, stone, Mexican tile, or any other resilient floors. Granite HP is an excellent leveling finish. It adheres superbly to the surfaces mentioned, leaving a semi-gloss, high quality protective coating that lasts longer than most floor finishes found today.

DIRECTIONS

1. To seal and finish apply a liberal coat of Granite HP evenly with a clean mop. Be sure the coat is even. Allow to dry for at least 30 minutes before applying additional coats. Two or three coats may be desired initially depending on the gloss desired and the condition of the floor.

2. Maintaining the floor requires use a microfiber dust mop for the removal of surface dirt and grit. Mop or scrub with a CORR neutral or all-purpose cleaner to remove all soil. After cleaning touch up traffic lanes as necessary or recoat the entire floor. Floor may be spray buffed. To spray buff, dust mop floor thoroughly and buff using a CORR spray buff and polishing pad.

This product meets the maximum content requirements for Volatile Organic Compounds (VOCs) as established by state and Federal regulations.
