# Imperial Rinse & Neutralizer

### DESCRIPTION

Imperial Rinse & Neutralizer is a specially formulated product with **Soil Guard™ 2000**, used to rinse the carpet after extraction cleaning, shampooing, or bonnet buffing. This product will remove any residual remaining in the carpet fibers and will further rinse on the acid side to prevent the carpet from oxidizing (turning brown), leaving a pleasant scent. Excellent for coffee, tea, light rust, and a wide variety of other stains. Safe on all carpet fibers including wool. This is a necessary step to keep carpet's original color. Color is water clear to prevent any dyeing of carpet fibers.

The new **Soil Guard™ 2000** cleaning technology incorporates DuPont Zonyl® Soil and Stain Protector to deliver a product that neutralizes harsh alkali residues from previous cleanings, removes detergent residues from the fibers and gives the dry carpet a fresh clean feel.

**Using Imperial Rinse & Neutralizer through the extraction machine, prevents the jets from clogging which could cause streaking during extraction.**

### DIRECTIONS

1. Prespray carpet using a CORR Imperial carpet product, allow the chemical to dwell for 3-5 minutes to emulsify the greasy soil and dirt. Then follow up by diluting Imperial Rinse & Neutralizer in the extraction machine 2-3 oz. per gallon of water. Proceed to rinse.

OR

2. Dilute Rinse & Neutralizer in a sprayer at a 2-3 oz. per gallon ratio and lightly mist over the previously cleaned carpet, allowing to dry simultaneously.

OR

3. To remove chemical build-up on extremely soiled carpets, dilute Rinse & Neutralizer in an extraction machine, 2-3 oz. per gallon of water, and rinse the carpet before extraction, shampooing or bonnet buffing. Always test an inconspicuous area to determine colorfastness.
